Instructions

Assignment Description

This assignment requires you to submit a one-page project proposal outlining the plan for your course project.

Your proposal should clearly communicate your project's purpose, feasibility, and connection to the course material.

Before submitting, all students must meet with the instructor or the TA to discuss your ideas and ensure alignment with course objectives. Proposals submitted without prior discussion may not be reviewed.

If your proposal is not approved, you will receive feedback and have until October 28 to resubmit an updated version.

Proposal Requirements (one page total)

Your proposal should concisely address each of the following sections:

1. Project Title and Overview

- A clear, descriptive title and a brief summary of what your project will do or study.

2. Connection to Course Material

- Explain how your project relates to the topics covered in this course.
- The connection must go beyond simply “using AI.”
- Examples: applying model interpretability methods, using transformer architectures for domain-specific data, or evaluating ethical/technical tradeoffs in applied AI systems.

3. Problem Statement and Goals

- Clearly define the problem your project aims to address and why it matters.
- Outline your main objectives and what success will look like.

4. Timeline / Project Plan

- Provide a realistic plan showing how you will complete the project within the available timeframe.
- Include key milestones (e.g., data collection, model design, analysis, presentation).

5. Success Metrics / Assessment Methods

- Specify how you will evaluate your project outcomes.
- Examples: model accuracy, improvement over baseline, user study results, or qualitative analysis of findings.

6. Value Proposition

- Describe the potential value or contribution of your project.
- What will others learn or gain from your results?
- Why is this worth doing?

Submission Guidelines

- Submit as **PDF** no longer than one page
- File name format <LastName_FirstName_ProjectName>

Due on Oct 23, 2025 11:59 PM
